Education

Jaypee University of Engineering and Technology, Guna *August 2022 – June 2026*
B.Tech in Computer Science and Engineering *CGPA: 6.6*
Delhi Public School, Varanasi *2012 – 2022*

Experience

Frontend Developer Intern, Nextfront Technologies - Remote *September 2025 - Present*

- Architected and shipped 3 production-grade responsive frontend applications for [SocialSense.ai](#), [Cueberry.ai](#), and [HiringForms.io](#), achieving consistent cross-device compatibility across 3+ screen breakpoints.
- Optimized application load configurations and production builds, reducing Time-to-Interactive by 35% and cutting bundle size by 40% through code splitting and lazy loading.

Graphics and UI/UX Designer Intern, SocialSense - Remote *June 2023 – May 2024*

- Architected engaging web application interfaces utilizing core UI/UX principles and wireframing in Figma and Framer, driving a 20% increase in user task completion rates and measurably improving overall scores.
- Created a cohesive brand identity system and redesigned the company website, resulting in a 25% boost in organic traffic and strengthening the brand's professional presence across digital platforms.

Webflow Developer Intern, Quickads - Remote *February 2024 – March 2024*

- Developed and maintained responsive Webflow website in collaboration with cross-functional teams, achieving a 15% improvement in Core Web Vitals scores and measurably enhancing client engagement metrics.

Projects

Research Genie | [Link](#)

- Engineered a Next.js (React 19) & Tailwind CSS frontend for an AI IEEE research assistant, featuring a Lexical rich-text editor, shadcn/ui components.
- Integrated REST and streaming (SSE) APIs for real-time AI chat and compliance checking, achieving <200ms response latency and rendering token-by-token markdown with structured violation reports.

CV Insights | [Link](#)

- Built a React 19 & Vite frontend for an AI resume analyzer, implementing responsive PDF upload interfaces and custom recruiter workflows.

Reader Mode Chrome Extension | [Link](#)

- Developed a Manifest V3 Chrome extension using Mozilla Readability.js to extract web article content, stripping ads to render a distraction-free dark mode UI and ad blocking.

Band Selection Tool | [Link](#)

- Worked on an Android utility app (Kotlin) utilizing root-level shell commands (Magisk/KernelSU) to unlock Samsung's hidden Network Band Selection with 1-tap shortcuts.

Leadership & Activities

- **CSE Co-Head** – 2025, **Secretary** (Multimedia & UIUX) – 2024
- **Advisor** (Media Wing) – 2025, **Joint Secretary** (Videography, Media Wing) – 2024
- **Designing Head** (TEDxJUET 2025), **Designing Team** (National Seminar on G20, Diversity & Sustainable Development) – 2024

Skills

Frontend & UI/UX: React (Vite, Astro), React Native (Expo), TailwindCSS, RestAPI, JS, HTML/CSS, Git, Adobe XD, Figma, Framer, Webflow

Graphic Designing with Video Editing & Motion Graphics: Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Adobe After Effects, Adobe Premiere Pro

Soft Skills: Prompt Engineering, Creative Thinking, Leadership, Team Work
